Who You Reached

7,220 different people saw your account this month.

Here's who they were.

PROFILE REACH

7,220

different people saw the account.

CONTENT REACH

8,540

people reached, counted per post.

Why two numbers? Profile reach counts each person once, however many of your posts they saw. Content reach adds up every post's own reach, so someone who saw three posts is counted three times.

FOLLOWERS AND NON-FOLLOWERS

70%

of your content's reach was people who don't follow you yet.

2,560 followers

5,980 non-followers

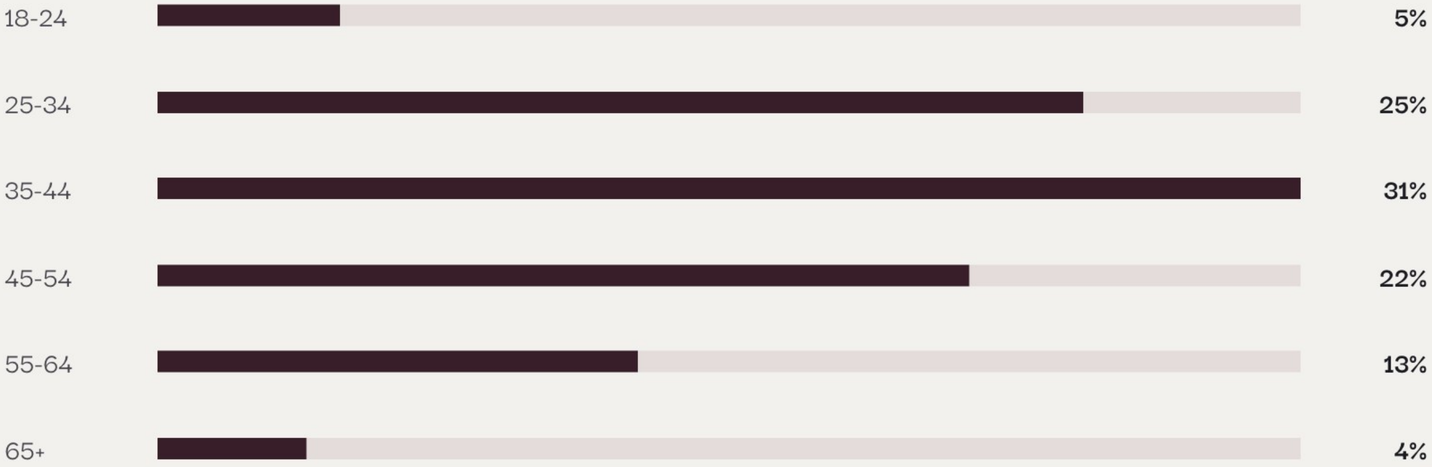

Counted piece by piece, like content reach, so these don't add up to your profile reach.

Instagram Posts

The posts that reached furthest, and how reels and posts did overall. Each post's reach counts everyone who saw it, so someone who saw three posts is in all three.

Instagram WHAT'S WORKING

Your best month for reach yet

More people saw your Instagram in September than any month so far, and most of them weren't following you yet. Reels that open on the view did most of it, so we'll keep that going.

Facebook FROM LAST MONTH

Open house posts did their job

We said we'd post every open house as an event in August. Both September open houses were in your top two Facebook posts, and the Hope Cove film was your most-watched video.

LinkedIn WHAT'S WORKING EARLY SIGNAL

Tuesdays are your day

Your LinkedIn posts are seen most on a Tuesday, and that's when people engage most too. We'll move your posts to Tuesday mornings.

All platforms WHAT'S WORKING

120 new followers in a month

Across Instagram, Facebook and LinkedIn, 120 people started following you in September, the most in any month so far. Most found you through reels and films of the coast.

07 · OCTOBER

Into October

Taking into account how the account has done recently, here's what we're bringing into the next few weeks.

01

Instagram

More of the coast reels

Into October we'll keep two reels a week that open on the view, as they brought most of your new followers.

02

Facebook

A film for every listing

We'll make a short film for each new listing, because your videos reached twice as many people as photos.

03

LinkedIn

Tuesday mornings

We'll post your LinkedIn updates on Tuesday mornings, when your network is most active.

CONTENT COMING UP

- October market note
- Bigbury barn film
- Autumn buyers' guide
